About Us

Green Food is a food company based in Santorso, in the province of Vicenza, right in the heart of Italy's Veneto region. Our production facility covers an area of 5,000 square meters and is the beating heart of our operations, where products inspired by the great culinary traditions of Asia are developed with constant attention to quality, safety, and innovation.

Our mission is to offer consumers an authentic culinary experience—one that tells the story of Eastern culture through genuine flavors and carefully selected ingredients. For this reason, Green Food has chosen to manage the cultivation of fruits and vegetables in-house, ensuring freshness, full traceability, and respect for seasonal cycles.

The Yuan brand is the core of the Green Food product line: a collection of specialties prepared according to traditional recipes passed down through generations, reinterpreted with skill and precision. Every step, from ingredient selection to processing, is designed to deliver authentic, high-quality products that meet the needs of both modern consumers and professional chefs.

Yuan is a symbol of harmony between past and present—a tribute to traditional Chinese cuisine, crafted for a global audience that values quality and origin. Gyoza, baozi and other iconic dishes are produced using modern equipment and advanced techniques, in full compliance with hygiene regulations and under strict quality control at every stage.

Green Food is committed to offering products that are not only delicious and safe, but also rich in history, culture, and meaning. With the Yuan brand, every dish becomes a journey through taste, discovering the timeless flavors of Asian tradition.
